Role of Online Teaching and Learning in Department of Library & Information Science in Jiwaji University, Gwalior (M.P.)

in Covid-19 Pandemic

Prof. Hemant Sharma
Head, SOS in Library & Information Science
Jiwaji University, Gwalior (M.P.)

Dr. Manoj Kumar Tiwari
Assistant Librarian,
Amity University Gwalior (M.P.)

Abstract:

The whole world is experiencing the corona virus outbreak, and Covid-19 is affecting all academic institutions, businesses and public spaces. In this pandemic, Covid-19 urges teachers to rethink their traditional approaches to preparation. Computer-based learning has many advantages, as there is no real limit to higher education, has the ability to engage in learning more moderate than ordinary reviews. With so many different approaches to e-learning and teaching methodologies that can be adopted under these pandemic conditions, many other resources and university agreement mobilization exercises have begun using the guide. Every teacher and student has clarity of sound image that makes information and learning effective.

Introduction:

Coronavirus pandemic began getting intense for advanced education after the twentieth of March 2020, when, as indicated by the information by (UNESCO, 2020) more than 1.3 billion students of all degrees of schooling in 142 nations are influenced by the lockdown. Being proactive for the approaching difficult circumstance, UNESCO asked governments all around the globe to take measures to reestablish instructive capacity to the most ideal degree. Monitoring the imbalances existing both inside social orders and among various nations, this allure concerned endeavor all the potential measures and not just the ones dependent on ICT (Information and Communication Technologies). All in all, the circumstance was considered as an emergency and a disturbance of

the ordinariness and the arrangements that must be given were not answers for the arrangement of instruction as normally, but instead a reaction considered important to incorporate all methods accessible for each situation with one and only unbiased, that is the reclamation of instructive capacity, the correspondence among educators and understudies and the congruity of learning quite far.

Given that the circumstance all around the world is notable, we incline toward not to additional notice any information on the pandemic emergency, yet to concentrate more, from one viewpoint, on advanced education.

Higher Education Responses to Covid-19 Pandemic Crisis in India

In India, where this specific investigation comes from, lockdown was at first nearby and begun the twentieth of March with the conclusion of the JIwaji University, Gwalior, in the more extensive locale of which the first instances of COVID-19 in Quite a while were identified. In a brief timeframe, the lockdown abandoned nearby into nation wide some time later. The State reacted promptly and gave the chance to all colleges in the nation to move showing internet, changing the legitimate system for the outstanding conditions. It is important that as per the Indian Constitution all colleges are public and the opportunities for Online training was permitted until the new emergency, More or less practically all state funded colleges oversaw in a generally brief timeframe to give practically all the courses in Online mode. For the situation we are examining underneath, the Jiwaji University, Gwalior in only multi week had the option to offer practically all the hypothetical kind courses utilizing an arrangement of Online schooling, in view of (I) simultaneous instruction upheld by a video chat programming and (ii) non concurrent training of a Model sort stage effectively accessible before emergency. This quick response and the change portrayed met with the understudies' acknowledgment.

Beginning from this idealistic situation, for example that in a moderately brief timeframe, the scattering of the infection will have been tackled and public activity and therefore Higher Education will have gotten back to ordinariness, a significant issue is the thing that will change as far as instructing at colleges. Underestimating that colleges will continue working by and large in the manner they have developed their examinations frameworks as of not long ago, the goal of the paper isn't to explore the level of ampleness of the arrangements given, since, all things considered, the circumstance was portrayed as a crisis, nor to see whether Teachers or understudies wish the total change of the advanced education foundations into Online schooling organizations. Here, we

generally center around the analogs between vis-à-vis instructing and Online training modes, yet additionally on the way that the type of advanced education so far establishes a prime territory for the improvement of social aptitudes and considerably more of basic reasoning and basic reflection abilities.

In any case, we should contemplate that the openness, both of Teachers and understudies, to a particularly enormous scope experience, will clearly have reshaped their requests, assumptions and furthermore the outline they have of their examinations. The point of convergence of this paper is the exercises learned for the method of studies, the showing techniques and normally the level of entrance of the ICTs to improve the work done in study hall and eye to eye educating.

Positive impact of COVID-19 on education

In spite of the fact that the flare-up of COVID-19 has made many negative effects on training, instructive establishments of India have acknowledged the demands and making an honest effort to offer consistent help administrations to the understudies during the pandemic. Indian Education framework got the open door for change from conventional framework to another period. The accompanying focuses may be considered as the positive effects.

Move towards Blended Learning

COVID-19 has quickened appropriation of advanced advances to convey education. Instructive organizations moved towards mixed method of learning. It energized all faculties and students to turn out to be more innovation smart. Better approaches for conveyance and appraisals of learning opened enormous open doors for a significant change in the zone of educational plan advancement and instructional method. It likewise offers admittance to enormous pools of students all at once.

Rise in use of Learning Management Systems:

Utilization of learning the board frameworks by instructive establishments turned into an incredible interest. It opened an incredible open door for the organizations those have been creating and fortifying learning the board frameworks for utilize instructive establishments.

**Enhance the use of soft copy of learning material:**

In lockdown circumstance understudies couldn't gather the printed versions of study materials and subsequently the greater part of the understudies utilized of delicate duplicates materials for reference.

Improvement in collaborative work

There is another open door where collective educating and learning can take on new structures. Coordinated efforts can likewise occur among personnel/educators across the world to profit by one another.

Rise in online meetings

The pandemic has made an enormous ascent in remotely coordinating, virtual gatherings, online classes and e-conferencing openings

Enhanced Digital Literacy

The pandemic circumstance initiated individuals to learn and utilize computerized innovation and brought about expanding the advanced education.

Improved the use of electronic media for sharing information

Learning materials are divided between the understudies effectively and the connected questions are settled through email, SMS, calls and utilizing diverse social Medias like WhatsApp or Facebook.

World wide exposure

Faculties and students are getting occasions to collaborate with peers from around the globe. Students adjusted to a global network.

Better time management

Students are able to manage their time more efficiently in online education during pandemics.

Demand for Open and Distance Learning (ODL)

During the pandemic circumstance the vast majority of the understudies favored ODL mode as it energizes self-taking in giving occasions to gain from different assets and altered learning according to their necessities.

Negative impact of COVID-19 on education

Education sector has suffered a lot due to the outbreak of COVID-19. It has created many negative impacts on education and some of them are as pointed below:

Educational activity hampered

Classes have been suspended and tests at various levels deferred. Various sheets have just deferred the yearly assessments and passage tests. Affirmation measure got deferred. Because of congruity in lockdown, understudy endured a deficiency of almost 3 months of the full scholastic year of 2020-21 which will additionally disintegrate the circumstance of progression in instruction and the as understudies would confront a lot of trouble in continuing tutoring again after a tremendous hole.

Unprepared teachers/students for online education

Not all educators/understudies are acceptable at it or possibly not every one of them were prepared for this unexpected progress from up close and personal figuring out how to web based learning. The greater part of the educators are simply leading talks on video stages, for example, Zoom, Google meet and so forth which may not be genuine internet learning with no committed web based learning stage.

Access to digital world

The same number of understudies have restricted or no web access and numerous understudies will be unable to manage the cost of PC, PC or supporting cell phones in their homes, internet educating learning may make a computerized split between understudies. The lockdown has hit the helpless understudies extremely hard in India as the greater part of them can't investigate web based getting the hang of as indicated by different reports. Hence the web based instructing learning technique during pandemic COVID-19 may upgrade the hole between rich/poor and metropolitan/provincial.

Increased responsibility of parents to educate their wards

Some educated parents are able to guide but some may not have the adequate level of education needed to teach children in the house.

Conclusion

Coronavirus has affected tremendously to the instruction area of India. In spite of the fact that it has made numerous difficulties, different open doors are likewise advanced. The Indian Govt. furthermore, various partners of instruction have investigated the chance of Open and Online learning by embracing diverse computerized advances to adapt up to the current emergency of COVID-19. India isn't completely prepared to make instruction arrive at all sides of the country through computerized stages. The understudies who aren't special like the others will endure because of the current decision of computerized stages. Yet, colleges and the public authority of India are perseveringly attempting to concoct an answer for resolve this issue. The need ought to be to use advanced innovation to make a favorable situation for a large number of youthful understudies in India. It is need of great importance for the instructive organizations to reinforce their insight and Information Technology foundation to be prepared for confronting COVID-19 like circumstances. Regardless of whether the COVID-19 emergency extends longer, there is a pressing need to take endeavors on most extreme usage of online stages with the goal that understudies not just complete their degree in this scholarly year yet in addition to prepare for the future advanced arranged climate. The idea of "telecommute" has more prominent pertinence in such pandemic circumstance to diminish spread of COVID-19. India ought to create inventive procedures to guarantee that all youngsters should have manageable admittance to getting the hang of during pandemic COVID-19. The Indian approaches should incorporate different people from assorted foundations including distant districts, underestimated and minority bunches for viable conveyance of instruction. As online practice is profiting the understudies hugely, it ought to be proceeded after the lockdown. Further itemized measurable investigation might be attempted to investigate the effect of COVID-19 on instruction arrangement of India.
